

# **Insurance for Life Science by Life Science Specialists**

Whether in the United States or abroad, Berkley Life Sciences is solely dedicated to providing premiere insurance coverage for today's top life sciences companies.

## **Who We Insure**

We provide personalized property and casualty insurance products and services to the following life science markets:

### **Medical Device Companies**

Companies that design, manufacture, and distribute medical instruments and devices for healthcare applications.

### **Medical Device Software Companies**

Organizations that develop software solutions for use in union with medical devices to enhance functionality and patient outcomes.

### **Medical Drug Companies**

Pharmaceutical firms involved in the research, development, manufacturing, and marketing of medications for treating various health conditions.

### **Biologic Companies**

Companies that create biologically derived products, including vaccines, blood components, and gene therapies, for medical use.

### **Dietary Supplement Companies**

Firms that produce and distribute vitamins, minerals, and other supplements intended to enhance health and wellness.

### **Medical Food Companies**

Companies that develop and produce foods formulated explicitly for dietary management of diseases or conditions requiring medical supervision.

## Cosmetic Drug Companies

Organizations that create products at the intersection of cosmetics and pharmaceuticals, designed to enhance appearance while providing therapeutic benefits.

## Product Development Organizations

Companies offering specialized services in developing, testing, and regulatory approval of life science products.

## Profit & Nonprofit R&D

Entities dedicated to conducting research in life sciences, ranging from private companies to academic and non-profit organizations.

## Product Testing Laboratories

Laboratories specializing in the testing and validation of life science products, ensuring compliance with regulatory standards and safety requirements.

## Medical Product Distributors

Companies that manage the distribution and supply chain logistics for a wide range of medical products, ensuring their availability to healthcare providers.

## Drug Discovery Technology

Firms and organizations that develop technologies and methodologies to accelerate the identification and development of new pharmaceutical compounds.

## **Bioengineering**

Companies and research institutions that apply biology and engineering principles to develop innovative solutions in healthcare, agriculture, and environmental management.

## **Health Informatics**

Organizations specializing in the intersection of healthcare and information technology, providing solutions for managing and analyzing health data.

## **Non-Medical Biotechnology**

Companies focused on biotechnology applications beyond healthcare, including agriculture, environmental management, and industrial processes.
